

Our Freelance Writing Jobs Online

Join our team!

As our work grows, we need experienced professionals with a passion for telling people's stories. Our team members work on a freelance basis and are assigned by the job. While some projects require working in person (such as conducting oral history interviews), we have other freelance writing jobs online. If you have experience, stellar work ethic, and the right heart, we encourage you to browse our articles and videos for the flavor of what we do.

As of late 2017, we have about as much work as our small team can keep up with, so it is time to deepen our talent lineup. Here are examples of opportunities we foresee in the near future:

- Article contributors/bloggers – we pay for articles or can do in-kind link swaps/cross promotions for relevant content
- Oral history interviewers
- Family story writers for everything from short vignettes to video scripts to full books
- Editors
- Video experts
- Graphic designers
- Genealogists
- Archivists
- Office/bookkeeping/administrative assistants

We are located in Ogden, Utah but can work with team members anywhere for some projects, especially when we have clients in

other locations.
